The Oklahoma Litter Market website serves as a communication link for buyers and service providers of poultry litter. Marketing poultry litter to more deficient areas or for further processing offers one solution to the litter surplus associated with high production areas. The goal of this site is to provide materials, maps, guides, practical information and avenues of contact with buyers, sellers and service providers. Listing your company on the Litter Market does not imply approval for or participation in any subsidy or incentive program. Applications for incentives are available from the sponsoring agencies or organizations.
